How was drag, as a way of "preventing"  
St's new program?

(before Pavers)

on Al Franken, Jan.  
5-10-06

"Hitler's invasion of Russia was  
well conceived, but poorly executed,"

(Deno on drag)

Cuba-I (not under air)

Reaction to Katrina.

Pearl Harbor: perfectly executed,  
but a strateg. disaster

Poland, France, etc.

in Russia - well executed

Japan in SEA, West Pac

(except too late in  
the year; no prep  
for winter, bad  
drag, no prep. for  
winning)

Cf. from

Would an attack on drag have been "better"?

Yes: but not solution to his new program  
or his power: see Gulf War!

Would give up weapons, which did stop him

No mid. solution that doesn't make situation  
worse - that is less not worse than from  
current program (esp. w. weapons, but even  
without) or even an Asian new

(≠ Hitler new, OBL new)

from within has this with AQ  
(now) nor would give new help to  
AQ or Hamas or Hezbollah.
